SUMMARY

A Cybersecurity professional with expertise in Identity and Access Management (IAM) domain. Experienced in administering and managing Directory Services infrastructure across various platforms and environments. Skilled in optimizing project outputs by leveraging automation to eliminate manual processes and reduce costs. Seeking a flexible role to leverage technical expertise and drive engineering excellence.

WORK EXPERIENCE

Security Consultant, Ernst & Young (EY) Global Delivery Services (GDS)   **Oct 2022 - Present**

- Responsible for administering and managing windows servers, services, users, groups and their memberships in Active Directory.
- Responsible for administering Azure AD/Entra ID, creating & managing cloud users, groups & their memberships, onboarding and registering applications, granting API permissions, managing PIM roles.
- Engage in engineering activities with L3 for enhancements in the various environments like Domain Controller promotion, clean-up activities, migration activities etc.
- Leveraging PowerShell to automate and enforce eliminating the use of manual processes.
- Led a migration project successfully by assisting application teams to move their LDAP configuration from RadiantOne to AD on time.
- Assisted client's stakeholders in creating server inventory for directory services and identifying 20+ servers that can be decommissioned, which led to huge cost saving.
- Identified and fixed multiple bugs across environments related to GPOs, Sites and Services, Connectors etc.
- Responsible for administering and managing Quest/OneIdentity tools like Active Roles Server, Recovery Manager for Active Directory, Change Auditor, Password Manager.
